

# WHY 9AM?

## THE MORNING BEGINS

At 9:am, the sun is already up and the day is gently in motion. It is that lovely moment between calm and energy, just the right moment for easing into the day with something warm and comforting.

## COFFEE TIMING

Some say coffee is best enjoyed after your morning has properly started, giving your body a little time to wake up before the caffeine joins in. That makes 9AM feel like a sweet spot for your first cup

## THE MAGIC OF NUMBER 9

The number 9 has its own playful charm, aside from being the highest single digit in numerical system. In maths, multiplying 9 often leads back to 9 when the digits are added together.

A tiny bit of magic for a café named 9AM.

$$\begin{array}{l} 9 \times 3 = 27 \quad \rightarrow 2 + 7 = 9 \\ 9 \times 11 = 99 \quad \rightarrow 9 + 9 = 18 \quad \rightarrow 1 + 8 = 9 \end{array}$$
